Many Things Are Meant

By many dealers who claim to handle groceries. When they advertise GOOD GROCERIES no mention is made of PRICE. When price is mentioned QUALITY IS OVERLOOKED. Again, sometimes they dwell on the virtues of a LARGE STOCK. In this case no claim is made to carrying FRESH GOODS.

We Preach the Three Main Virtues of Groceries—

Quality Quantity Price

They are mentioned in their regular order and the happy combination is causing hosts of pleased patrons at our store.

THE TENDENCY OF THE TIMES.

The tendency of the times is to centralization, and when applied to government as it has been, imperialism in some of its many forms makes an appearance and becomes a disturbing element to free government. A tendency to concentration is not only present and applied to government, but it is also present and applied to business enterprise. The tendency to centralization of government in its application has been made more clear by the action of the present Congress than by any preceding national legislative body.

The evidences of centralization are found in all that Congress has done and refused to do. Positive legislation respecting government by the United States of the people of Porto Rico has centralized its principles by denying to them the rights guaranteed to all men by the constitution. An oligarchy has been by Congress given authority connected with a right to administer government on the island, which is foreign to our system and is a centralization of power in a few to the exclusion of government by the people for the people of the island.

The right of taxation without representation is a part of the system provided and applied, which is centralization in one of its most obnoxious forms. The will of a few has been substituted for the will of the many. Taxation without representation is absolutism and destroys the most vital principle connected with free government. A people to whom it is denied are not free or a self-governing people. They are slaves to the governing power, and their property may be taken at the will of the government to which they unfortunately are subjects. They have no voice or representation in matters that pertain to their welfare, or to the slave condition they sustain to the governing power. Their rights are in the hands of others who may not sympathize with them in any particular.

The will of those to whom they are subject is largely the law of their persons and property, which is and should be an abomination to civilized men, and more especially should it be so to free self-governing men. There is also a strong manifestation of will by the few to the exclusion of the will of the people in matters of government at Washington, when applied to home matters. The people have expected and had the right to expect their servants in Congress would make some effort to give them relief against the advancing power of trusts, who are robbing them under the forms of law, but there is no intention that has made its appearance to do so. It is not the will of Mark Hanna, who is the government, that they should be relieved.

The government has said trusts are doing no harm. It should not be expected under these circumstances that the people would receive any relief from any oppressive conditions there are upon them. The refusal to give relief because it is the will of Mark Hanna that no relief be given, is an exhibition of power before unknown to the people of the United States, and proof positive not only of a tendency to centralize, but is centralization of the most absolute form known to an absolute system.

At the present rate of centralization of business enterprise, personal pursuits will be under the control and management of large capitalized combinations in the near future to the exclusion of individual effort by the people in most of the business departments that are now open to free competition by those who may desire to enter a contest for ascendancy or success. The tendency of capital is to centralization or combination, which gives strength, and as a result power is acquired over the weaker elements in society and in business enterprise, which is used to aid the schemes of combined capital.

There is not only a tendency to aid combinations of capital by the party in power, but protection is given capitalized combinations, through a refusal to make any effort to protect the people in their individual, or in their collective capacity against the inroads of money combination—which refusal is in line with the general course of Congress, which is to deprive the individual of any rights, natural or artificial, he may possess.

A refusal to relieve against trusts and their oppressions in the form of legalized robbery has its origin in and comes from the spirit made known by the fact of a denial to the people of Puerto Rico of the right of self govern-

ment. It is the spirit of absolutism made rampant by the uncontrolled power of money. Its growth has been gradual under favorable political conditions till its power is overleaping the bounds of moderation and decency. It is domineering to the individual citizen in his weakness, as all tyrants are, and it is of the essence of servility to royalty. It is ashamed of its country and rightfully so, because it has no place in its annals and is an outgrowth of innate baseness galvanized by money.

NEWS OF
THE STATE

Brief Items of Local and General Interest to Our Readers.

The receipts of the State land office last week were \$6,913 79.

The Gardner mill is running day and night on a fair grade of ore from their mine—the Delaware.

Carson river ranchers are shipping potatoes to California, but are only receiving \$9 per ton for them. Last winter the entire crop could have been sold for \$20 per ton, but the owners held for a raise.

The principal object of Mr. Hellman's visit to the Comstock last Friday was to inspect the Kinkead mill plant, the fame of its economical work having extended to the Transvaal gold fields, and the introduction of Kinkead mills in South Africa by Mr. Hellman will follow the close of the war, as he was highly pleased with this process of ore milling.—Enterprise.

Box of Explosives.

Yes terday evening a little child found a box containing a quarter-gross of boxes of fulminating caps. They were lying on the ground beside the steam power house of the Reno Water, Land and Light company. The child told his father of the find and the latter reported it to Officer Helmold.

The lid had been forced off the box, but the contents had not been removed. The box was billed to the Esmeralda Commercial company. Evidently it had been stolen from the freight depot and then thrown aside when the contents were discovered.

It is lucky that the finder of the explosives did not experiment with the caps, as there was a sufficient quantity of them to have caused the kid to vanish into thin air.

Killed by a Switch Engine.

Anthony Hein, an old man about 60 years of age, was struck by the yard train Tuesday at Carson and soon after died.

The engine was running out to the flume with two empty box cars ahead, and Hein was struck near a culvert a few hundred yards south of the factory.

When picked up he was still alive, but was not conscious, and it was found that his left arm was nearly severed from his body, and he had sustained several blows on the head and chest.—News.

The Great East.

Sam Hamlin returned yesterday from a trip through the eastern part of the State. He reports excellent rains and bright prospects for all lines of industry. The building trades have been stimulated by the promising outlook and lumber is in demand.

A Critical Operation.

Yesterday afternoon an operation for acute appendicitis was performed at the county hospital. The surgeons were Drs. Lewis, Phillips and Patterson. The operation was performed upon William Gault and was successful.

THE WAR MAY
LAST YEARS

Filipinos Are Taking Courage and

Acting Upon the Defensive.

Special to the JOURNAL.

MANILA, May 2.—Details have been received of the fierce battle between the American garrison at Catubigand and the Filipinos. The garrison numbered 30 and was attacked by several hundred Filipinos. They took refuge in a church, the roof of which the rebels fired.

The walls remained intact and they stood off the rebels for five days. Twenty Americans and 200 Filipinos were slain. A lieutenant and 80 men arrived and the Filipinos retired. They have been greatly encouraged and fears are entertained that the end of the war is years off.

Passage of the
Nicaragua Bill.

Special to the JOURNAL.

WASHINGTON, May 2.—The House, after a bitter debate, this afternoon passed the Nicaragua canal bill by a vote of 225 to 35. The measure carries with it an appropriation of \$140,000,000. The opposition was swept away by a hurricane of enthusiasm from both Democrats and Republicans.

The Mortality List
Is Still Growing.

Special to the JOURNAL.

SCHOFIELD, Utah, May 2.—Up to 10 o'clock tonight 175 bodies have been recovered from shafts Nos. 1 and 4 of the Pleasant Valley mine. It is now known that from 300 to 350 men were at work at the time of the explosion and that probably 300 have perished.

Nevada Postmaster Appointed.

Special to the JOURNAL.

WASHINGTON, May 2.—S. W. Noble has been appointed postmaster at North's ranch, Humboldt county, Nevada. vice Orlando North, deceased.

BRIEF WIRED WORDS.

Denver is greatly alarmed over the possibility of the reservoir dam above the city breaking on account of the heavy pressure of flood waters.

An immense amount of valuable timber is being destroyed by forest fires in Michigan.

Another mining disaster has occurred in West Virginia. Four lives were lost.

A bill has been introduced in Congress to exclude undesirable Japanese immigrants.

An Opera by Students.

The standard comic opera, "Olivette," will be played before a Reno audience on the 11th instant by the University opera company.
L. R. Merrill, manager and musical director, has devoted much time and study to developing his corps of amateurs, but he is repaid in now knowing that no element is lacking to make the opera a success.
The opera is lengthy and too many characters, scenes and situations appear therein to discuss each individually. You must hear the Soldier's song, boys' chorus, and the girls' chorus and Valentine and Olivette—Miss Langan—and all the rest. Reno has never produced a musical event that will compare with this.

Prevented a Tragedy.

Timely information given Mrs. George Long of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her, and she writes this marvelous medicine also cured Mr. Long of a severe attack of pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and \$1.00 Every bottle guaranteed. Trial bottles free at S. J. Washoe May
Expect no Aid.

Washoe county will be alone in the fight to save to Nevada the waters of its greatest river. The press of the State are either silent on the proposed Von Schmidt steal, or openly favor the villainous scheme. Here are extracts from an editorial in the Carson Appeal, a sheet that grieves greatly when Reno forges ahead, and appears to covertly rejoice at threatened misfortune for the State metropolis and its environments:
"The Von Schmidt scheme for furnishing water to San Francisco is a feasible one.
"The waters of the Truckee now run to waste every winter and it is proposed to save this waste, which the people of Nevada haven't the sense to save, and use it in San Francisco.
"The Reno papers are howling at the Von Schmidt scheme. Washoe county people have decided that they will not utilize the waste waters of the lake, or allow any one else to.
"The dog in the manger policy will never work. Washoe county must get in and do something with those waste waters of Lake Tahoe and establish an intelligent storage system, or they must step aside and allow the more progressive people of other localities to handle the proposition."

Intercollegiate Basketball.

All arrangements are completed for the basketball game to be played Saturday afternoon in the University gymnasium.
The Stanford—rechristened Palo Alto—team will probably arrive Saturday morning. They will be met at the train by half the town, and all of the student body, so the girls say.
Immediately after the game a banquet will be served the visitors by the members of the Delta Rho fraternity.
In the evening an informal reception will be tendered them at the Cottage. All the students and friends of the University are invited to attend.

The Animal Show.

Gentry's trained animal show, which is billed for two performances in this city next Monday, is said to be the best entertainment of the kind on the road. It drew magnificent houses in San Francisco.

Weekly Crop Bulletin.

CARSON, May 1, 1900.
The reports of correspondents for the week ending April 30th indicate that the weather conditions of the forepart of the week were very unfavorable to farming interests in all parts of the State. The rain and snow, cold north winds and freezing night temperatures brought the growing crops to a standstill, and in a few localities caused a temporary cessation of farm work. Heavy and destructive frosts occurred on the 25th and 26th, causing great damage to fruit bloom in various parts of the State.
The last three days of the week were warm and cloudy with heavy rains on Sunday and Monday in western districts. Under the influence of the high temperature and heavy warm rains at the close of the week, crops recovered rapidly from the effects of the recent cold spell and made rapid advancement. The copious precipitation during the week has been of incalculable benefit to stock interests. Seeding and planting continues in eastern, central and northern sections where the work has been delayed to some extent by unfavorable weather and soil conditions.

General Assembly.

General assembly will be held in the University gymnasium at 11:30, Thursday, May 3d. The address will be given by D. F. J. Wrinkle. Subject: "Blue-Surveying."
Friends of the University are cordially invited to be present.

MINES AND
MINING

Items About Nevada's Leading Industry Clipped From Exchanges.

The Eureka Cyanide Company has extracted \$800,000 in bullion values from the tailings they have been working.
A width of six feet of ore, carrying 38 per cent copper, is alleged to have been developed in the Nelson group of claims at Jackson creek, in Humboldt county.
The Dixie, of St. George, this State, reported at Salt Lake City with another consignment of copper bullion the other day that will go to the Chicago copper refinery. The value of the consignment was estimated at \$15,000.
W. J. Dooley, manager of the Johnny Mining Company's property at State-line, whose performances have drawn so much attention to that locality, arrived from that camp again to confer with Frank Wilson. He left the little mill, which is to be greatly enlarged the coming season, running steadily on ores that afford an average of about \$80 a ton.—Salt Lake Tribune.
When completed the new Gould & Curry mill, now being built at Virginia City, will be the most modern crushing and concentrating plant in Nevada. The ore reserves in the Gould & Curry, extending upward from the 425 level to the surface, will be run into the mill in mine cars without sorting, and this method will save considerable labor and expense. Superintendent Kinkead will have the mill ready to start as soon as the Floriston company delivers electric power.—Report.
The Best in the World.
We believe Chamberlain's Cough Remedy is the best in the world. A few weeks ago we suffered with a severe cold and a troublesome cough. Having read their advertisements in our own and other papers we purchased a bottle to see if it would effect us. It cured us before the bottle was more than half used. It is the best medicine out for colds and coughs.—The Herald, Andersonville, Ind. For sale by Wm. Funniger.
